Duraclad interlocking wall cladding combines excellent printability with easy installation, perfect for signage, retrofits, POP, trade show booths and more.

Duraclad’s multiwall construction results in a high level of rigidity and strength. It can be quickly installed on a simple wood fabricated frame for both temporary and permanent use. Interlocking tongue & groove edges allow fasteners to be completely hidden. Sheets join together for a clean, smooth finish. Duraclad is water resistant and will not crush. Corners won't bend.

Overview

Main Benefits

- Bright white print-ready surface
- Can be fastened directly to wall studs
- Easy tongue and groove installation keeps seams tight without gaps
- Fasteners are completely hidden
- Class-A fire rated
- Water resistant and rot-proof
- Attractive high-gloss white finish
- Extremely durable and chemical resistant
- Panel lengths from 8’ to 20’

Typical Applications

- Permanent decorative walls for retail or commercial environments
- Temporary construction barriers/hoarding with consumer messaging and graphics
- Eye-catching images for vast wall space in retail and sports venues
- Point-of-purchase and trade show displays and booths
- Food-safe. Use for restaurant and food court dividers and walls.
