# ACHIEVE OUTSTANDING PRODUCTIVITY

**Compact A4 Colour Laser Printer**

## Outstanding productivity and operability in a compact body

### Delivers high-speed 40 ppm printing

bizhub C4000i delivers high-speed printing productivity up to 40ppm, while bizhub C3300i prints up to 33ppm, for both colour and monochrome. The warm-up time between powering up and being ready to print is less than 15 seconds for colour, and less than 13 seconds for monochrome. First copy out time is less than 8.7 seconds for colour and less than 8.0 seconds for monochrome, and panel rest time has been significantly reduced to 1.5 seconds.

### Duplex printing/Combine function reduces paper use

Duplex printing and combine function that aggregates multiple pages onto one page (a maximum of 16 pages) come as a standard. These functions not only reduce paper usage but also reduce total cost of ownership (TCO).

### USB direct print

Data can be printed directly from the USB flash drive with a few easy steps, just by inserting the USB flash drive into the port.

Compatible file formats: PDF, compact PDF, JPEG, TIFF, XPS, compact XPS, OOXML (.docx/.xlsx/.pptx), and PPML

### Equipped with 1,200 dpi High Resolution Mode

bizhub C4000i series is equipped with a 1,200 dpi High Resolution Mode\* with the superb capability to reproduce small text and fine lines. It delivers high-quality output of drawings that require fine details, and documents with high text density.

\*Print speed reduces.

### Standard equipped Windows/Mac-compatible controller

Delivers high-performance printing, even in a mixed Windows/Mac network. Executes high-speed processing and high-quality printing of page description languages such as PCL, PostScript3 conversion, and XPS, and of file formats including JPEG, PDF, and OOXML.

### Large, easy to use 7-inch panel with new UI for better operability

The operation panel has been redesigned, now featuring familiar, smart device style operability. A large 7-inch screen delivers simpler operation with a few easy steps.

### Compatible with a wireless LAN environment\*

bizhub C4000i series can be connected to a wireless LAN in environments that lack a wired LAN. It is compatible with simple AP (Access Point) Mode which can set up a local wireless LAN environment with only the main bizhub unit. A wireless LAN can be built separately from the company LAN. Because the separate LAN network bypass the company LAN, even mobile devices brought in from outside can be securely connected.

\*Requires optional Upgrade Kit UK-221.

## A compact body, 420 mm wide and 528 mm deep

bizhub C4000i features a small and compact footprint of 420mm (W) x 528mm (D), which is perfect for placing on a desktop or in tight office spaces.

## Designed for a maximum paper feed capacity of 1,600 sheets

bizhub C4000i offers an optional 500-sheet paper feed unit, where up to two trays can be added. Despite its compact body, it delivers substantial paper feed capacity with a maximum of 1,600 sheets, including 100 sheets from a manual feed tray.

### Standard tray: 500 sheets

Paper size: A4-A6, B5-B6  
Postcards (up to 20)  
Envelopes\* (up to 30)

\*Creases or print defects may occur depending on the envelope type, storage and printing environment.

Max.  
**1,600 sheets**  
(C4000i, 80gsm paper)

Max.  
**1,100 sheets**  
(C3300i, 80gsm paper)

### Paper feed unit: 500 sheets (Optional)

Paper size: B5, A4, letter

\*C4000i: up to 2x paper feed unit can be added.  
C3300i: up to 1x paper feed unit can be added.

### Manual feed tray: 100 sheets

Paper size: A4-A6, B5-B6, legal  
Postcards (up to 20)  
Envelopes\* (up to 10)

\*Creases or print defects may occur depending on the envelope type, storage and printing environment.

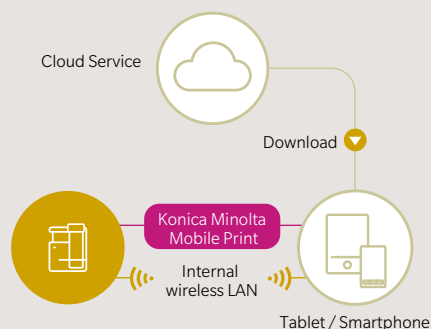

## MOBILE & CLOUD Flexible network connectivity

### Konica Minolta Mobile Print\*1 connects with mobile devices

A simple and intuitive user interface enables easy connection between mobile devices and bizhub. Documents and photos stored in the cloud can be smoothly printed.

\*1 The Android version can be downloaded from Google Play, iOS version from App Store and Windows 10 Mobile version from Microsoft Store.

\*Requires a wireless LAN environment to connect mobile devices to a network.

### Compatibility with mobile print services

bizhub C4000i series is compatible with a variety of smart phones and tablets' mobile print services.

## SECURITY A worry-free security function

### Compatible with VLAN (Virtual LAN) that prints in two network environments

Compatible with a VLAN function that logically divides into multiple networks. It separates and isolates the data for each network, such as externally vs. internally connected networks, company-dedicated vs. guest-only networks, or in offices occupied by multiple companies so the printer can be used securely.

\*For further details please contact your authorised Konica Minolta retailer.

CUSTOMER BENEFITS

**Intuitive operability**  
Operate the bizhub like a smartphone or tablet with a fully customised user interface

**Mobile connectivity**  
Print anytime from anywhere with Konica Minolta's innovative mobile technologies

**Services**  
Efficient printer fleet management, including automatic consumables delivery, pro-active maintenance and remote setup

**Sustainability**  
Numerous eco features reduce energy consumption and costs

Software	Data Administrator; Web Connection; Driver Packaging Utility; Log Management Utility

- All specifications refer to A4-size paper of 80 g/m<sup>2</sup> quality.
- The support and availability of the listed specifications and functionalities varies depending on operating systems, applications and network protocols as well as network and system configurations.
- The stated life expectancy of each consumable is based on specific operating conditions such as page coverage for a particular page size (5% coverage of A4). The actual life of each consumable will vary depending on use and other printing variables including page coverage, page size, media type, continuous or intermittent printing, ambient temperature and humidity.
- Some of the product illustrations contain optional accessories.
- Specifications and accessories are based on the information available at the time of printing and are subject to change without notice.
- All brand and product names may be registered trademarks or trademarks of their respective holders and are hereby acknowledged.

<sup>1</sup>Not applicable to C3300i  
<sup>2</sup>Warm-up time may vary depending on the operating environment and usage

#### **About Konica Minolta Business Solutions Asia**

Konica Minolta Business Solutions Asia, based in Singapore, is a wholly owned subsidiary of Konica Minolta Inc., Tokyo, Japan. With its expertise in imaging, data processing and data-based decision making, Konica Minolta creates relevant solutions for its customers and solves issues faced by society.

As a digital workplace solution provider, Konica Minolta helps its clients to identify and unlock the potential digitalisation to help companies reach the next level in the digital maturity of their organisation by rethinking the workplace.

Konica Minolta's Igniting Print Possibilities offering helps printers, converters and brand owners maximize workflow automation to increase efficiency. The company delivers consultancy in all communication matters as well as top-of-the-line production, packaging and label printers. Its finishing devices create print products that stand out and create added value. Konica Minolta has established itself as the production printing market leader for more than a decade (InfoSource).

With its commitment to the Sustainable Development Goals (SDGs), Konica Minolta has pledged to consistently pursue its sustainability and social responsibility goals. The company has been repeatedly recognized for its rich history of social contribution as well as for working towards achieving the SDGs throughout its business and is listed among "2021 Global 100 Most Sustainable Corporations in the World", also having received the highest level in EcoVadis Sustainability Ratings.

Worldwide, the company has over 43,000 employees and is operating in over 150 countries.

**Our organisation is certified according to ISO27001, ISO9001, ISO14001 and ISO13485 standards.**
